**Cleaning Instruction**
**During Season Care:**

- Before cleaning, be sure to turn off and unplug the unit.
- Keep the fan clean. Carefully wipe the unit with a soft, damp cloth. Please be very cautious near the motor.
- DO NOT immerse the fan in water and never allow water to drip into the Motor Housing.
- Never use gasoline, benzene or thinner. This will damage the surface of the unit.
- After cleaning, be sure to completely dry the unit with a cloth or towel.

**After Season Care:**

- Your fan can be stored in the off-season.
- Before putting the fan in storage, clean it thoroughly, cover it with a vinyl bag, and store it in a cool and dry place. We recommend using the original (or appropriately sized) box.
